

Blink

a brief from the ASORN Board of Directors

Welcome to *Blink*, the latest ASORN communication tool developed to bring you a quick update from the Board of Directors. Member feedback has indicated that you would like to get to know the Board Members better and to have more interaction with them. Once per month, members will receive a quick communiqué from a different Board member on a wide variety of topics. We hope you enjoy this new member benefit.

ASORN Annual Meeting 2009

The Annual Meeting Planning Committee, in partnership with the National Certification Board of Ophthalmic Registered Nurses (NCBORN) will develop and deliver an extensive day of educational programs at the 2009 Annual Meeting. The programs are designed to provide you with knowledge to help you successfully achieve or maintain the honorable designation of Certified Registered Nurse in Ophthalmology (CRNO). If you are already certified, these presentations will provide an excellent review.

The following topics will be covered on Saturday, October 24th:

- Anatomy and Physiology
- Common Eye Disorders from A to Z
- Basic Eye Exam
- Pharmacology
- Ophthalmic Imaging

The Annual Meeting program will also enhance your knowledge about the accredited facility and what goes on behind the scene. As a nurse or technician you will learn more about:

- The Art of a Quality Improvement Study
- Benchmarking
- Quality Management and Improvement, and Risk Management
- Infection Control Principles
- Instrument Care

Please watch for more updates about the Annual Meeting program, and keep your eye on the Web site for updates in the coming months. The committee has been hard at work since January finalizing the program so that members have educational presentations that will enhance their ability to be effective members of the ophthalmic team. We look forward to seeing you in San Francisco, Saturday, October 24 –Monday, October 26, 2009.

Regards,

Rose Strong, RN, CRNO
Annual Meeting Director
