

Dean's List

April 2021

UNIVERSITY OF IOWA
HEALTH CARE

Notable & novel scientific awards to celebrate.

Competitive Renewals

Ted Abel • Neuroscience & Pharmacology

Epigenetic Mechanisms of Memory Storage

NIH R01 • 5 years

George Weiner • Internal Medicine

Cancer Center Support Grant (CCSG)

NIH P30 • 5 years

New Federal Awards

Jennifer Bermick • Pediatrics

Understanding the role of histone 3 lysine 4 trimethylation in neonatal innate immune development under normal and inflammatory conditions.

NIH R01 • 4 years

Snehajyoti Chatterjee • Neuroscience & Pharmacology

Understanding the molecular mechanism of memory from single-cell gene expression to protein folding

NIH K99 • 5 years

Cui Huxing • Neuroscience & Pharmacology

Decoding brain circuit underlying metabolic regulation of sleep-wake behavior

NIH R01 • 4 years

**John Engelhardt and Andrew Norris
Anatomy and Cell Biology**

Early Pathogenesis of Cystic Fibrosis Related Diabetes

NIH RC2 • 3 years

Dawn Quelle • Neuroscience & Pharmacology

Role of RABL6A-PP2A in neuroendocrine tumors

NIH R01 • 5 years

"The good thing about science is that it's true whether or not you believe in it."

- Neil deGrasse Tyson

Other Awards

Joseph Dillon and Yusuf Menda

Internal Medicine

Peptide Receptor Radionuclide Therapy with ¹⁷⁷Lu-Edotreotide Compared to Targeted Molecular Therapy

ITM Solucin GmbH

Arlene Drack • Ophthalmology & Visual Sciences

FFB Canada-Treatment of BBS10 in mouse Bbs10-/- model using Human BBS10 gene in 2 different vectors

Foundation Fighting Blindness FFB Canada

Mary Beth Fasano • Internal Medicine

Systemic Allergic Reactions to SARS-CoV-2 Vaccination

Benaroya Research Institute at Virginia Mason

Barcey Thurston Levy • Family Medicine

RADx AcceleRATEd study (Rapid Assessment of Technology for SARS-CoV-2 Detection)

University of Massachusetts Medical School

Mohammed Milhem • Internal Medicine

Intratumoral CMP-001 In Combo w/ Intravenous Nivolumab in Unresectable or Metastatic Melanoma

Checkmate Pharmaceuticals

Ernesto Ruiz Duque • Internal Medicine

APOLLO-B: A Study to Evaluate Patisiran in Patients with Transthyretin Amyloidosis with Cardiomyopathy

Alnylam Pharmaceuticals, Inc.

Michael Shy • Neurology

CMT1X Biomarkers and Outcome Measures

Charcot-Marie-Tooth Association

Grerk Sutamtewagul • Internal Medicine

Azacitidine with or without MBG453 for patients with myelodysplastic syndrome (MDS)

Novartis Pharmaceuticals Corporation

Yousef Zakharia • Internal Medicine

INCMGA00012, INCAGN02385, and INCAGN02390 in Participants with Select Advanced Malignancies

Incyte Biosciences International S.a.r.l.
